CALL FOR PAPERS

ICECS is an international conference dedicated to circuits and systems, held annually in Region 8 (EU, Africa and Middle East). The 29th edition of this IEEE Circuits and Systems Society Region 8 flagship conference will take place in Glasgow, UK.

The scope of the conference will focus and not limited to:

» Analog/mixed-signal/RF circuits
» Biomedical and Bio-Inspired Circuits and Systems
» EDA, Test and Reliability
» Digital circuits and systems
» Linear and Non-linear Circuits
» Low-Power Low-Voltage Design

» Microsystems
» Neural networks, Machine and Deep Learning
» Sensors and Sensing Systems
» Signal Processing, Image and Video
» VLSI Systems and Applications

To implement the above vision, this year’s conference will highlight the following disruptive themes:

» Society 5.0 – Human-centric Society
» Sustainable Computing and Systems
» Energy-aware Systems and Services

» Nanosatellite and smart IoT
» Smart Systems for Automotive
» Lab-on-CMOS, Wearable and Implantable Devices

A selection of the top accepted papers will be invited to submit an extended version for Journals supported by IEEE Circuits and Systems Society.

SUBMISSIONS

The technical committee invites authors to submit 4-page papers in standard IEEE double-column format, including references, figures and tables, to clearly present the work, methods, originality, significance and applications of the techniques discussed. Accepted papers will be submitted for inclusion to IEEE Xplore.
