

IEEE CIRCUITS AND SYSTEMS SOCIETY

Student Membership **Benefits**

Jump-start your career by learning the latest in circuits and systems engineering from the industry's best. From workshops on emerging technologies to networking events, the Society provides student members with first-hand access to resources to advance professional development. In addition to all of the benefits offered through standard membership, student members of the Circuits and Systems Society received the following additional benefits:

- Special Scholarship Opportunities
 - Pre Doctoral Scholarship: CASS offers two yearly pre doctoral fellowships to recognize a young member enrolled in a PhD program in a field related to the Circuits and Systems Society field of interest. The recipient of the award will receive compensation of up to USD \$1000 for travel to ISCAS to receive the award of USD \$25,000.
- Student Travel Awards
 - CASS offers Student Travel Awards to enable the winners to present their research work at CASS-sponsored conferences and workshops.
- Special student discounts on CASS Conferences and Workshops
- Career Services and assistance
- Young Professionals functions and initiatives

Young Professionals Program (YP) CASS Members

If you are an IEEE Member who has received your first professional degree within the last fifteen years, you are automatically part of IEEE YP. The IEEE Circuits and Systems Society would like to find better ways to serve your needs as a **CASS YP** member. Your feedback is important to us as it will increase the variety and quality of the many services the IEEE CASS already offers you. You can learn more about **YP** at <http://bit.ly/IEEEYP>

How to Join the IEEE CAS Society
