

IEEE Seasonal School on

Circuits & Systems for Neuromorphic and Edge AI Computing

28-30 March 2025

About the Event

Join us for the **IEEE Circuits & System Society** "Seasonal School on Circuits & Systems for **Neuromorphic and Edge AI Computing**", where leading experts from academia and industry will discuss the latest advancements in Neuromorphic Computing, Edge AI Architecture, and Energy-Efficient Intelligent Systems. This program is designed for **Students, Researchers, Academic Faculty, and Industry Professionals** looking to gain insights into cutting-edge hardware and algorithms shaping the future of AI and computing

Key Highlights

-  **Expert Talks from Academia & Industry Leaders**
-  **Hands-on Tutorials**
-  **Panel Discussions on Real-World Applications & Future Trends**
-  **Networking Opportunity** with Academia and Industry Pioneers

28th-30th March 2025

Indian Institute of Technology Jodhpur

Topics Covered

- Neuromorphic Circuits & Systems
- Low-power & Edge AI Hardware
- Brain-inspired Computing Paradigm
- Emerging Devices for AI Acceleration
- Industry Applications & Future Trends

Who Should Attend?

- Graduate Students & Researchers
- Engineers & Industry professionals
- Academicians & AI enthusiasts

Registration Includes

- Registration Kit
- Refreshments and Lunch
- Participation Certificate

Accommodation available for participant in IIT Jodhpur

Registration

 **Limited Seats Available – Register Now!**
