Proposer: Jianfei Cai

Name: Prof. **Dong Xu**

Institution: Nanyang Technological University (NTU), Singapore

IEEE Member: Yes.

CAS Member:

Attending Meeting:

Biography:

Dong Xu is currently an assistant professor at Nanyang Technological University (NTU) in Singapore. He received the B.Eng. and PhD degrees from University of Science and Technology of China (USTC), in 2001 and 2005, respectively. During his PhD study, he worked at Microsoft Research Asia and The Chinese University of Hong Kong for more than two years. He also worked at Columbia University for one year as a postdoctoral research scientist.

Dr. Xu is an internationally well recognized young researcher in the area of computer vision and multimedia information processing. He is currently leading a research group with more than ten Ph.D. students and research staff working on new theories, algorithms and systems for intelligent processing and understanding of visual data such as images and videos. Recently, the Ph.D. student Lixin Duan in his research group won the prestigious Best Student Paper Award in IEEE International Conference on Computer Vision and Pattern Recognition (CVPR 2010) (See <http://cvl.umiacs.umd.edu/conferences/cvpr2010/>). CVPR is an international flagship computer vision conference. The overall paper acceptance rate over recent years is about 27%. He has over 50 papers published in top tier journals and conferences including IEEE Transactions on Pattern Analysis and Machine Intelligence (T-PAMI), IEEE Transactions on Image Processing (T-IP), IEEE Transactions on Circuits Systems for Video Technology (TCSVT),

IEEE Transactions on Systems, Man and Cybernetics, Part B (T-SMC-B), Pattern Recognition (PR), CVPR, ACM Multimedia Conference (ACM MM), International Conference on

Machine Learning (ICML) and International Joint Conference on Artificial Intelligence (IJCAI).

Since 2007 (resp. 2005), Dr. Xu has consistently published research work in T-PAMI, T-IP and T-CSVT (resp. CVPR), which demonstrates his determination to maintain high quality research and keep his research work visible at the top tier conferences and journals. In total, he has published 6 T-PAMI papers, 10 T-IP papers, 9 T-CSVT papers and 15 CVPR papers. His publications have been cited in Google Scholar more than 1400 times, and his H-Index in Google Scholar is 18. His T-PAMI 2007 paper entitled "Graph Embedding and Extensions: A General Framework for Dimensionality Reduction" has received 220 citations in Web of Sciences as of April 2011. His T-SMC-B 2008 paper entitled "Discriminant Locally Linear Embedding with High Order Tensor Data" was selected by Essential Science Indicators (ESI) as one of the Hot Papers in the field of Engineering for the period of March – April 2010.

Since 2008, he has received over S\$2.8M in research grant funding, from Singapore National Research Foundation (NRF), A*STAR, Ministry of Education (MOE), and Microsoft Research Asia (MSRA). The funding from the Singapore government and MSRA is highly competitive with

acceptance rates ranging between 7% and 15%. Moreover, the Ph.D. students Yi Huang and Lixin Duan in his research group were awarded the prestigious Microsoft Research Asia (MSRA) Fellowship Awards in 2008 and 2009, respectively. The recipients are selected from top Asian universities after undergoing a highly competitive evaluation process. Only four and five winners from top universities in Singapore and Australia received MSRA Fellowship Awards in 2008 and 2009, respectively.

Dr. Xu is an associate editor of Neurocomputing (Elsevier) and Machine Vision and Applications Journal (Springer) and he is an editorial board member of Journal of Multimedia (Academy). He

is currently serving as the guest editor of a forthcoming special issue on Social Media in ACM Transactions on Multimedia Computing, Communications and Applications (ACM TOMCCAP) and a forthcoming special issue on Visual Content Identification and Search in IEEE Multimedia. He has also served as the guest editor of three special issues on Video and Event Analysis in TCSVT,

Computer Vision and Image Understanding (CVIU) and Pattern Recognition Letters (PRL). He will serve as the program co-chair of The 2012 Pacific-Rim Conference on Multimedia (PCM 2012) in Singapore as well as the area chair of CVPR 2012. Dr. Xu is a member of IEEE SMC Society Technical Committee on Cognitive Computing. He has served as the workshop co-chair of The ACM SIGMM Workshop on Social Media and The IEEE International Conference on Multimedia & Expo (ICME) 2010 Workshop on Visual Content Identification and Search, a Track Chair of ICME 2009, and a Theme Chair of Pacific-Rim Symposium on Image and Video Technology (PSIVT) 2009. Moreover, he has regularly served as a reviewer for leading computer vision and multimedia journals including T-PAMI, T-IP, TCSVT,

ACM TOMCCAP and IEEE Transactions on Multimedia (T-MM). He has also served on the program committees of the major computer vision and multimedia conferences including ICCV 2007, 2009, 2011, CVPR 2008, 2009, 2010, 2011, ECCV 2010, and ACM MM 2009, 2010, 2011.
